

Wire Products Since 1880

extruder-screen packs

JELLIFF Corporation is a company that draws fine wire, weaves cloth and imports wire cloth. We have a operation that blanks all sizes and shapes of screen packs in steel and stainless steel, and we carry many items in stock for off-the-shelf delivery

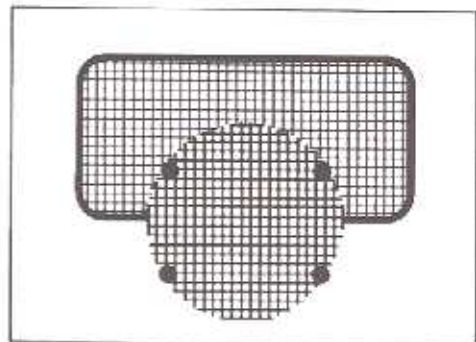

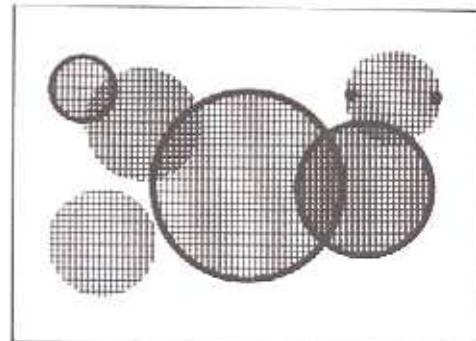

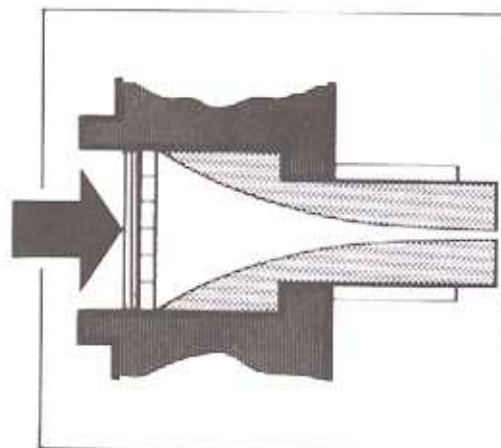

We also produce spot welded and aluminum-bound screen packs. If spot-welded packs are used, we should know the number of welds required the fewer welds the lower the price.

We would appreciate an opportunity to quote on your requirements. The information we require to put together a quotation is as follows:

- 1.... Dimensions** (sketch if not circular)
- 2.... Mesh and Wire Diameter**
- 3.... Steel or Stainless Steel**
- 4.... Aluminum or Stainless Binding**
- 5.... Order Quantity** and/or yearly usage

Since we are one of the largest companies manufacturing extruder screens, we feel that we can reduce your present costs while supplying a quality product.

Please call us or drop us a line telling us of your requirements
